WHAT IS CLASSICAL EDITION?

Classical Edition, by violist Lena Fankhauser, is a sublabel of Handmade Story by Barbara Alli that goes back to a collaboration started in 2018. As a classical musician living in Vienna, Lena was inspired to find a way to connect the African designs of Barbara Alli with the world of classical music. Made to visually represent diversity in the arts and specifically with musicians in mind, they are suited for anyone who wants to enhance an outfit with a dash of color.

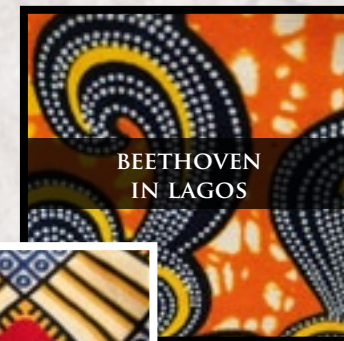

WHY CLASSICAL EDITION MASKS NOW?

Classical Edition masks are now part of the collection as artists are slowly beginning to get to work again. Masks have become a necessary hygienic measure, but should also bring a spot of joy and style to necessity. All Classical Edition masks are named after composers and various cities in Ghana and Nigeria where the fabrics come from.
